

CHANGE YOUR STORY-CHANGE YOUR LIFE

MYSTERY SCHOOL LEVEL I

Invites You On A Archetypal Journey To Discovering Your Mythic Path

A PROGRAM FOR PERSONAL GROWTH AND SELF DEVELOPMENT

Ancient Mystery Schools were attended by invitation only wherein lessons were given in stages that took place over many years. As the initiate passed through these stages she/he then advanced to the next degree of lessons. The purpose was to TRANSFORM the egoic self, and attain "immortality" by learning the mysteries of the spiritual dimensions. This Mystery School is designed after the myth of Inanna, an ancient Sumerian Myth. In the myth, Inanna willingly embarks into the underworld where she is stripped of her seven veils as she undergoes death (death of the ego) and returns transformed to the upper world, where she was "queen of the upper world and heavens". This myth is an archetypal blueprint of all mystery schools, which elicits an alchemical transformation of the personal self toward the integration of the Soul Self.

*If you have ever felt destined to live out the same repetitive patterns in your life, and felt powerless to change that, then this class will help you change the myth you've been living your life through, and **BECOME THE HERO OF YOUR OWN LIFE STORY!***

WHAT IS MYSTERY SCHOOL?

Can we change our destiny? Carl Jung said we could- if we can make conscious the unconscious myths that live at the depth of our choices.

On this inner journey to your true self, you will unravel old codes that have navigated your life. Codes are those unwritten, unconscious myths that have been embedded archetypally in your psyche, both through your personal history and that of your ancestors. You will discover what the myths and codes are that have been rooted in the foundation of who you are.

Integration and transformation are the keys for this journey into the depths of your psyche. This is an alchemical journey where we will meet

on selected weekends. Like Inanna, the Sumerian Queen who willingly visits the underworld, she is stripped of her 7 veils as she descends seven steps into the underworld. These seven veils refer to the persona of garments, or the chakra's that hold our joy, sorrow, our patterns and beliefs that may get in the way of fully being who we are. Each of the weekends represents a veil, which will be transformed through soul nourishing sacred circles. Each step will lead you closer and deeper to the nature of your true self.

We will be looking at your personal mythology and the sacrifices of the self made at the unconscious levels. We will be working at archetypal levels as well to discover the myth that has been unconsciously embedded

in your life. The work becomes transformative when we are willing to release our old stories to become vehicles through which the new story may emerge into time. This journey provides a roadmap toward an authentic and loving relationship with yourself and others. It is a process of letting go of the illusions (old myths) that we have about ourselves and our lives. At the end of the 9 months, you will have a newfound freedom to create a new, joyous story from which to live your life from.

Through mask-making, collage, interactive imagery, dream work, and journaling, you will uncover parts of yourself, unknown to you, along with other parts which may become gifts you bring into your future.

The course meets 7 times over the course of 9 months- over a 2 day weekend. This foundational program is experiential and one weekend builds upon another, creating a transformative journey. TUITION: is \$1795.00, with a \$300.00 deposit due six weeks prior to the first weekend group. This group is limited in size, so please register early. Payment plans are available by request. Early registration is \$1695 six weeks in advance. See web site for further information. Classes start in Sept. and end in May.
